Qualitative Analysis Scope

Qualitative Analysis Aspect

How The Company is Defined-The Company's Business Development Aspect-
How The Company Defines Itself

Qualitative Analysis Aspect

Qualitative analysis aspect allows an objective evaluation in determining your company's relationship with organizational agility determinants.

The aim is to measure the competency of your company on the subject comparatively.

How is your company defined in the context of organizational agility?

1

What is the business development aspect of your company?

2

How does your company define itself in the context of organizational agility?

3

Within the framework of organizational agility, your company is put under scrutiny and the results are evaluated together with the quantitative research data.

Conclusion

The materials, which are obtained after the research for your company are classified under umbrella categories and the determinants of your organizational agility (*proactiveness, responsiveness, competency, strategic flexibility, speed, stakeholder perception*) are analyzed.
